

Listing Doktor

Listing Doktor helps Amazon sellers fix spelling errors, logical mistakes, and incorrect graphics in their listings to improve clarity, trust, and sales.

Direct Translations Fail

AI and machine translations from Chinese to German sound unnatural and misleading

Incorrect Image Texts

Poorly translated labels confuse customers

Lost Sales

Errors damage trust and reduce conversions

PROBLEM

Many sellers rely on AI or direct translations from **Chinese to German**, but these often sound unnatural, confusing, or even misleading — hurting customer trust and sales.

Professional Listings

Clear, error-free texts and images build trust

Clarity

No confusion, just precise messaging.

A polished listing converts better

THE SOLUTION

How Listing Doktor Helps

Image Text Mistakes

✗ “INTERESSANTE FEINMOTORISCHE BEWEGUNGEN”

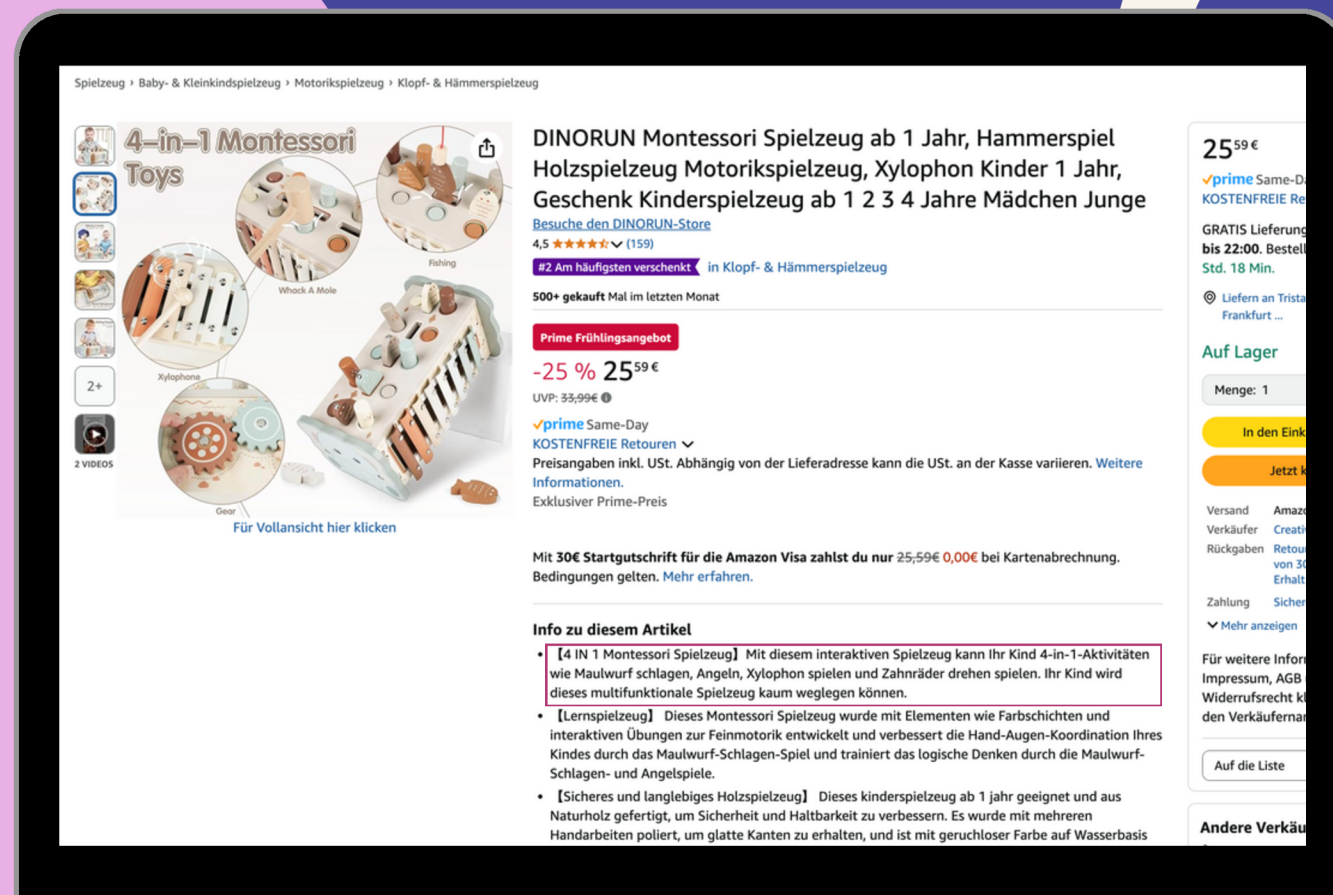

✓ FÖRDERUNG DER FEINMOTORIK

✗ “ZARTE DRUCKMUSTER”

✓ FEINE DRUCKDETAILS

The term "ZARTE DRUCKMUSTER" are direct translations from **Chinese**, which sound unnatural in German. In Chinese, terms like "精致" are used to describe something fine or delicate, but this doesn't translate well to German.

Text Mistakes

✗ “4 IN 1 Montessori Spielzeug] Mit diesem interaktiven Spielzeug kann Ihr Kind 4-in-1-Aktivitäten wie Maulwurf schlagen, Angeln, **Xylophon spielen und Zahnräder drehen spielen.**”

✓ ... wie Maulwurf schlagen, Angeln, Xylophon spielen und Zahnräder drehen.
